

Cure My Brain
"Helping to cure one brain at a time"

Year in Review

Thanks to everyone for their generosity in supporting Cure My Brain over the past 12 months.

Cure My Brain have raised over \$95,000.00!!!!

This has been achieved by fundraising events and some very generous sponsors we would like to acknowledge:

TL Consulting

Enov8

PSC Insurance

A very special thank you to Year 12 Students of St Lukes Grammar School who raised over
\$10k!!!!

We have also received support from family and friends in the UK and would like to thank them for their continued support.

We had some fun along the way!

Some key events throughout the year really helped raise Cure My Brain's profile and we thank all of you for your support at these events.

CMB is very grateful to the following supporters who supported all of our events from day 1:

Torbreck Wines

Banjós Retreat

Fossil Australia

Simply Sports Cars

Meera Park Wines

Our UK friends and families also pitched in with raising funds. Thanks to Gary Farrant for his efforts in competing in the Dartford & Whiteoak Sprint Triathlon and raising \$600!! Great individual effort!

Our Gala was a great hit too raising over \$42k!!!

We had our inaugural Cure My Brain Golf Tournament raising over \$5k

The ladies also enjoyed Melbourne Cup lunch raising \$1400.

To see pictures of our events throughout the year go to Past Event on our website [here](#)

Where did it all go?

CMB have been able to continue to support Katharine Smith and her ongoing treatment. Katharine continues to remain healthy and this year started her first job!

CMB raised enough funds for Lifehouse to purchase a Stryker Ultrasonic Aspirator. The aspirator provides surgeons with suction and irrigation, and the Stryker is highly advanced with multiple features that make it the best for neurosurgery.

We are privileged and excited to announce that we are helping another family in their fight against Brain Cancer

Meet Caleb Scott and his family:

Caleb is 10 years old and from Port Macquarie, NSW.

On the 4th of September 2015, Caleb's world was turned upside down when he was found to have a brain tumor.

He was flown to Sydney the following day to have surgery to remove the tumor.

Diagnosis is that he has a brain cancer called Medulloblastoma. The survival rate for medulloblastoma ranges from 30% to 80%, depending on factors such as the age of the child, and the 'risk level' of their tumour (low, average or high-risk).

Caleb is now facing a long period of treatment to cure the cancer and to hopefully resolve the facial paralysis he has been left with post op.

Cure My Brain is assisting with the funding of physio treatment for Caleb and we hope to help him with his facial paralysis.

Looking ahead.

This year we will continue to support Katharine Smith with her ongoing rehab requirements.

We will also be supporting Caleb Scott and his family in their fight and his ongoing rehabilitation.

CMB is proud to also support Chris O'Brien Lifehouse in the funding of surgical equipment and instruments to the functionality and precision of brain cancer surgery at Lifehouse.

We need your continued support in order to achieve these goals.

The following are current events we have scheduled so please save the date and we look forward to seeing at these events!

Cure My Brain Annual Golf Day: 10th March

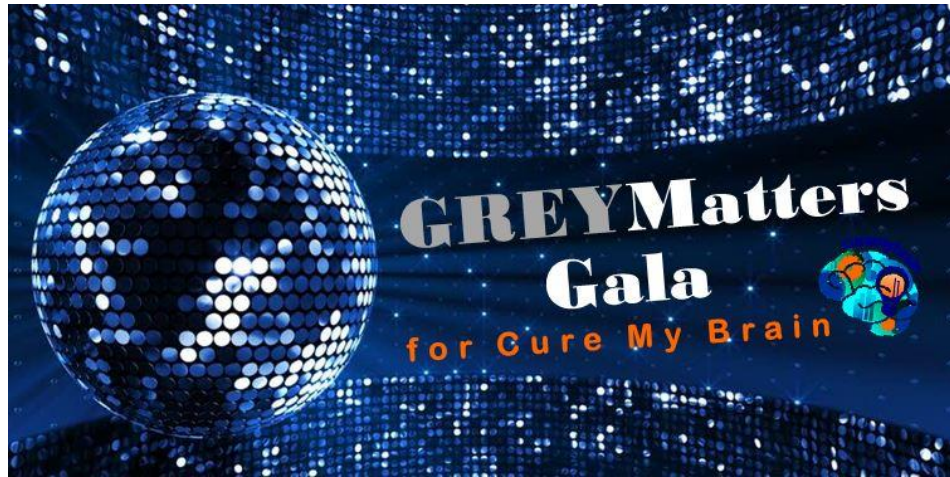

Cure My Brain Annual Golf Day on the **10th of March 2017 at Moore Park Golf Course.**

Last year Macquarie Telecom won the team event, let's see if they can retain their title!!!!

We will be fundraising for Caleb Scott and Chris O'Brien Lifehouse Neurosurgical unit.

All proceeds from this Golf Day will be allocated to this effort.

Registration is now closed. Thanks to everyone supporting this event.

Cure My Brain Annual Gala: 20th May 2017

Where: Kirribilli Club Milsons Point

When: 6pm Saturday 20th May 2017

Please save the date show your support and have a little fun!!!!

More details to follow!!!!!!
